JOSIAH TURNER, Jr., EDITOR.

ROBINSON CRUSOE'S ISLAND.

If there is one spot of earth in which all who speak the English tongue may be said to take a common interest, it is the island of Juan Fernandez. The favorite tale of nearly every childhood is by most of us remembered through life with grateful affection, and the scene of its marvellous incidents shares in our regard. It may be true that the proper Robinson Crusoe's Island was not off the coast of Chili at all, but in the mouth of the Orinoco; and it may also be true that the continent should be called Columbia and not America; but habit has endeared in both cases the existing usage, so that imagination takes precedence of what is or ought to be fact, and the continent will be America, and Juan Fernandez Robinson Crusoe's Island, until the end of the chapter.

As most readers are aware, this classic corner of the earth is in latitude 33 deg. 40 min. S., about four hundred miles off the coast of Chili, and is about the size of Staten Island. It is, however, far more ruggedly picturesque than that beautiful suburb, and boasts one mountain, Yunque, that towers four thousand feet above the sea.—Around it grow in luxuriant abundance various grains, peaches, figs and other fruits, together with the sandal-wood tree and the cork; and among these disport themselves—or did a few years ago—many wild goats, and not a few wild horses. Excellent fish are abundant there, and, with the sweetest of water and a delicious climate, a more inviting spot can hardly be imagined. So thought the early buccaneers, who made it a resort for many a day, and so thought afterward American and English whalers who touched there for supplies.

For some years the Chilian Government disturbed the solitude of the place by making it a penal colony; but the convicts rose in revolt, there was some bloodshed, a village that had been built at Port Cumberland, the harbor, was burned, and the authorities, after ferreting out and putting to death the wretches who, on completing their work of destruction, had fled to the woods, abandoned the island to the goats and horses. Subsequently two or three wandering Chilians found shelter there and eked out a livelihood that the generous soil for the most part easily supplied, by selling to passing ships vegetables and water. In 1849, when the memorable rush was made for the gold fields of California, some of the ships bound thither round Cape Horn touched at Juan Fernandez. They found there besides some half a score of Chilians, including women and children, the mate of an American whaler, who, like Selkirk, had left his vessel from choice to dwell upon the island, and who had a family by one of the Chilian women. This man looked not unlike the pictures of "Robinson Crusoe," having garments of goat skins, a long beard, and that expression of profound yet melancholy calm which people who live in solitude are prone to have. He seemed, notwithstanding, to be contented, and spoke not of leaving the place or of any wish to change his condition. A grotto near the shore he pointed out as Robinson Crusoe's Cave, and showed other spots identifying them with localities spoken of in Defoe's story. He appeared to regard himself as Selkirk's representative, and to take pride in being so accepted.

Twenty years seem to have passed after this without any other or more definite use being made of Juan Fernandez; but last Winter it was ceded by the Chilian Government to a company of Germans, who are led by one Robert Wehrhan, a Saxon engineer. He and his Society have now taken possession of the Island and purpose to make it their home. They lumber some sixty or seventy individuals, and have taken with them cows and other cattle, swine, fowls, all kinds of agricultural implements, with boats and fishing apparatus, and tools for the various mechanical trades. It is said that Wehrhan left Germany eleven years ago, and after passing some time in England, was engaged on railways in South America. While there he conceived the idea that he has now carried into effect. This is a repetition on a larger scale of the experiment of Pitcairn's Island, without of course, the criminal prelude that stained the history of the crew of the Bounty. The world will watch the career of this little colony with deeply interested eyes; for, apart from the curiosity and sympathy naturally attracted by the experiment itself, no more engaging spot could have been chosen in which to make it than that which is cherished in so many hearts as Robinson Crusoe's Island.—*N. Y. Times.*

AN APPEAL FOR THE REMOVAL OF THE CONFEDERATE DEAD AT GETTYSBURG.

By correspondence and other means it has been brought to the special attention of the Hollywood Memorial Association of Richmond that over three thousand Confederate soldiers are buried on and near the battle field of Gettysburg.

David Wills, Esq., President of the National Cemetery Company, says in a letter to General Fitzhugh Lee: "There has never been any action by the Board of Managers of the Soldiers' National Cemetery Company here in reference to the disposition of the remains of the Southern dead lying on this battle field. *Neither is there any action contemplated.* The charter of the Association provides only for the interment of the remains of those who fell in defence of the Union.

"There should be something done with the remains of the Southern Soldiers.—There are about 500 marked graves, and these are fast becoming obliterated. Their names might be preserved, and the remains gathered together into a cemetery or burying ground, if any one would take the matter in hand."

Their trusted chief, General R. E. Lee, whom they followed, and fighting under whose leadership they fell, approves the plan of removing their bodies to our own soil.

The Hollywood Memorial Association have the disposition to undertake this work, but do not possess the ability unless generously aided by friends throughout the South. They offer ample grounds in their cemetery, and also the aid of their association to prosecute the work, should it be found practicable to remove the bodies to Richmond.

To accomplish this purpose means must be raised by the earnest efforts of the survivors of the Confederate army, the mothers and sisters, the fathers, and brothers, and friends of the slain. Every Southern State has representatives at Gettysburg. Will not active men and women, in every city, and town, and county, at once volunteer to collect and send contributions?

In this way we may gather those

"Who bore the flag of our nation's trust,
And fell in the cause, though lost, still just;
Gather the corpses strewn
O'er many a battle plain,
From many a grave that lies so lone,
Without a name and without a stone,
Gather the Southern slain."

MRS. GEO. W. RANDOLPH,
MRS. R. E. LEE,
MRS. J. L. M. CURRY.

Communications and remittances may be sent to Mrs. G. W. Randolph, Richmond, Va.

Southern papers are respectfully requested to copy this appeal at once, and urge its claims upon the generous public.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

MONDAY, OCTOBER 18, 1869.

LAUGHABLE AND RIDICULOUS.

The *Standard* was graciously pleased to say to the people, some time ago, that it is opposed to any further appropriations. Now, is this not laughable! What is the matter with the *Standard?* O, it is only pausing! It has no more worlds to conquer! It is pausing! It is waiting to see if any new *paying* enterprise presents itself! Why, *Standard*, the Legislature, at the behest of your owner, the Prince of the "Ring," undertook to appropriate nearly the small sum of $27,000,0000! That's a trifling sum! You don't think of stopping at that, do you? You are not enterprising! You are narrow-minded! You are behind the times! O, you are pausing! Yes, you are laughing, perhaps dreaming! Yes, you are in a good humor, while you smoke a fifty cent Havana, and you feel kindly towards the "rebels," and say, good humoredly, that you are opposed, really and seriously opposed, to any further appropriations for Railroads! O, yes, you are laughing, jesting; only jesting, while you quietly smoke a fine cigar, and lounge on one of your fine sofas the people paid for! Yes, you are jesting, only jesting!

But, seriously, here is the little bill you hand over to your officers to collect from a people down trodden and impoverished:

Old State debt	$18 000,000
New State debt, valid as your Treasurer says	16,300.000
Total	34,300,000
The interest on this sum to be paid semi annually	$2,058,000
Expenses for State Government	500,000
Expenses of County Government	500,000
Expenses for Schools which the people don't get	200,000
United States Taxes	1,000,000
Amounting to	$4,258,000

This is the *small sum* you require the conquered "rebels" to pay annually! Only four millions two hundred and fifty-eight thousand dollars! What a trifling sum to have to pay every year by taxation! O, yes, you are laughing! Only jesting! *Pausing!* when you say you are opposed to further appropriations. Let the people read!

IMPORTANT TRANSACTION—THE N. C. R. R. LET.

We learn from a well informed source, and one entirely reliable, that "The North Carolina Railroad Company" have let and farmed out their Road, for the term of twenty years, to "The Raleigh & Gaston Railroad Company" and others, for an annual rent of $240,000, to be paid on the first day of January in each year. The rent is secured by a deposit in Bank of cash or its equivalent in United States bonds, or good and acceptable Railroad or other bonds; this deposit is to be permanent, and if there is occasion to apply it, then it is to be renewed, and as often as necessary.

The Road and property is to be returned at any termination of the lease in like good order and condition as when the lessees received it, and besides the covenant to this effect, the lessees give bond and security in the sum of $240,000 to so return the property. The Road is to be inspected annually in the first week in November, with a view to see that it is kept in such good order and condition. If the lessees fail to comply with their covenants to pay rent, or keep up the deposit, or to keep up the property, then the lease to determine at once. There are covenants on the part of the lessees that the "local freight" and local passenger fare shall not be greater than it is at this time. This statement embraces the leading provisions of the lease. A meeting of the Stockholders is called to meet in this city on the 11th of November.

This is an important transaction, and it would seem to be a beneficial one for the Stockholders of the Company. $240,000 is 6 *per cent* on the whole capital stock.—The stock has been worth about 25 cents in the dollar; this lease will probably run it up.

The lessees, as we learn, are entirely responsible. Indeed, the Raleigh and Gaston Railroad Company, itself, is able to discharge such an undertaking.

THE ELECTIONS LAST WEEK.

The telegraph has not yet given us the final result in any of the States that voted on Tuesday last; but enough is known to show that the Reds have no big things to "holler" over. If they had had such leaders in Pennsylvania and Ohio, as we have in North Carolina and other Southern States they would have been beaten in each State by more than a hundred thousand majority. If those State had been as tax-burdened as we have there would not have been a grease spot left of the party there in the recent elections.

THE CHATHAM RAILROAD BONDS.

We understand that the suit in which the Supreme Court decided the appropriation of $3,000,000 for the Chatham Railroad Company, to be unconstitutional is not yet at an end, and that the Company is still carrying on the suit with hopes of success. So, after all, the State may have to pay these bonds. So we go! Hurrah for the "Ring!" Hurrah for Governor Holden! Hurrah for the Legislature! Hurrah for "carpet baggers!" Hurrah for ruin! As James Fentleroy sings, Rah! rah! rah! for everything!

How long, O, Lord! When will the Radical reign come to an end!

THE STATE FAIR.—The Fair, which opens to-morrow, has our best wishes for its success. Everything has been done by the Executive Committee to make it worthy of our beloved State. The grounds have been put in perfect order, Judges have been selected from the principal citizens in every county in the State, arrangements have been made with the various Railroads for the transportation of passengers and freight, provision for the accommodation of visitors has been made, and premium lists and programmes have been scattered broadcast throughout our borders. All things seem propitious and should the weather prove favorable, we anticipate an immense concourse of people.

The State Fair should be vigorously and liberally sustained by the Legislature and citizens of the State generally, for no more efficient agency could be devised to develop the resources of the State in the various departments of art. North Carolina is behind her sister States in this matter. The Legislature of Maryland appropriated, this year, $2,500, and the city of Baltimore the same sum to the Maryland Agricultural Society, to enable it to fit up its grounds and to offer premiums. The city of Richmond has given $10,000 to the Virginia State Fair for a similar purpose. We need not speak of the Northern and Western States. They have all devised the most liberal measures and are consequently reaping the reward. North Carolina has twenty times the mineral wealth of New York, and ten times the water power; her climate is much more genial, and her soil, taken as a whole, equally productive naturally, and yet she is at least fifty years behind the empire State in the development of her resources and the improvement of her capabilities. It cannot be expected that all our citizens will perceive at once the value of the Agricultural Society, as a quickener of life in our material pursuits, but those who do, should join hand in hand to sustain this institution, and to increase and extend its influence until every portion of the State shall experience the beneficent efforts of its power, as an agency for good.

The State Fair, should present to the visitor a bird's eye view of the varied extent of our productions, natural and artificial, and a criterion of our advancement and civilization. All persons should exhibit something, not for the sake of a premium, but simply to present a picture of our status as a State in the march of material prosperity. There must be a generous State pride, and an emulation among ourselves to raise the best crops and to make the best articles of their respective kinds. Public spirit must join with individual enterprise in the effort to compete with other States in manufactures, crops &c., and to develope to the fullest extent among ourselves, the hidden wealth and latent energies of our soil, streams and mines.

The meeting of the Society, which will be held on the evening of each day of the Fair, should be largely attended, and every one should seek to contribute something to the interest and improvement of these occasions. Let our leading planters, farmers, manufacturers, miners, mechanics, and citizens of every class and profession, come together to counsel and devise means for the advancement of the material interest of the State. The work is important, our responsibilities are great, and we should unite in the effort that is put forth by the Society, to prosecute that work with energy and vigor. Let all do something, and let all do according their ability, and we shall see the Old North State rise to her true place among her sister States, and her people will be blessed under Divine Providence, with prosperity and its attendants.

WHERE DOES HE LIVE?—Our worthy Post Master, Calvin J. Rogers, Esq. proves mileage and draws pay from the county, as a member of the Board of Commissioners, for travelling from Fish Dam to Raleigh; at the same time he draws pay from the United States as Post Master at Raleigh, while a law of the Department which he swears to support, requires him to reside "within the delivery" of the Office of which he is Post Master. So Calvin has a legal residence in Raleigh as Post Master, for which he draws a salary, and a sort of "constructive" residence at Fish Dam, for which he draws pay, also. We don't understand this money-making sort of ubiquity; we'll ask the people if they do. If his home is Fish Dam, he can't be Post Master at Raleigh, legally; and if his home be Raleigh he can't draw mileage from Fish Dam, legally. Which he is, or *where* he lives is the question.

For the Sentinel.

DAVIDSON CO. N. C., Oct. 4th 1869.

Editor Sentinel:—SIR: While passing through the beautiful little village of Thomasville, a day or so since, my attention was attracted by the exhibition of a splendid pair of horses by Squire Ed. H. McCutchen and Col. Clem. L. Moon, which, I was told, would be on exhibition at the Fair in Raleigh on the 19th and 20th inst. The animals are, I am informed, the finest in this State, and any one having a desire to witness their superior training, would be interested to be present on the 19th at Raleigh. Squire McCutchen it is admitted, possess es more power over horse flesh than any man in this country—and as a Rider I have never beheld his equal. Col. Moore is taking lessons under him, and will soon be a man of no small importance in that line. I heard the Squire say that the Colonel will not sit erect enough, but thinks that "shoulder braces" will bring him all right.

Mr. Editor, I thought I would call the attention of the public to the fact that these magnificent animals will be at the Fair for exhibition, after which they will be offered for sale, without regard to "race or previous condition." Yours,

JOCKEY.

The Pope has just received from the Italian Government seven millions of lire, the sum fixed by the July protocol of last year.

Sim, chief of the Washoes, died intestate, and his wives are quarelling over his estate—a pair of old boots.

A little radical boy on being asked to what trade he would wish to be brought up, replied: "Will be an overseer of the poor, because ever since papa has been an overseer we've had pudding for dinner."

SAVANNAH.

We proudly refer to the election yesterday in proof that the government of Savannah is firmly and permanently fixed in the hands of her own people—people who own the property, pay the taxes, and must rise or fall with her. The Conservative candidate for Mayor is undoubtedly elected by *near three thousand majority!* and the entire Board of Aldermen by nearly the same vote. There is much that is gratifying in this result. Two years ago it was difficult to say on which side rested the strength, while the whole county gave a large Radical majority. Now Radicalism has completely collapsed. The poor deluded negroes have abandoned the iniquitous and sinking hulk almost in a body, while the white Republicans are, nearly to a man, identified with the conservative wing of the party and opposed to all further adverse legislation towards the South. In a Dent or Walker contest in Georgia they would all be found voting with the true men of the South.

We point to this result as a feather in the cap of Savannah, and as assurance to all the world that there is at least one city in the South where the Southern white man is paramount, and by the consent of nearly all its inhabitants—that decent people can live here in peace, and that rights of person and property will be religiously respected. The losses annoyances, and humiliations to which honest, virtuous citizens and their investments are subjected in most other Southern cities are here unknown, with a guarantee that the hydra-headed monster of Agrarianism will never be able to raise its head amongst us.

And one word as to the means by which this revolution has been accomplished. It has not been done by fighting the negro, but by friendly intercourse with him, enlightening his mind upon his true interests and duty, showing his identification with the Southern people in all things, the willingness of the latter to do him justice and confer on him every right that he is capable of exercising discreetly, by exposing the fraud and wickedness of his Radical deceivers, and in all matters acting fairly and squarely toward him. This is the policy that has opened the eyes of the colored people and inspired them with confidence in the Southern whites. Satisfied on these points, they feel no further interest in politics, and are perfectly willing that white men whom they know to be sensible and honest shall have exclusive control of the government. Let this same system be pursued everywhere in the South—act fairly toward the negro, make him feel that he is safe, and deceive him in nothing—and our word for it, in twelve months Radicalism will find no foothold in our broad domain. —*Sav. Rep.*, 12th.

GREAT STORMS IN THE LAST CENTURY.—The great storms of past times far exceed any of those of the present century. The storm which occurred in England November 26 and 27, 1703, was called the "great storm," as it was one of the most terrible that ever raged there. The devastation on land was immense, and on the coast and in the harbors the loss in shipping and in lives still greater. The loss in London alone was estimated at £3,000,000. Eight thousand persons were thought to be drowned in the floods on English rivers and on the coasts. Twelve men-of war, with more than 1,800 men on board were lost within sight of land. In the county of Kent 17,000 trees were torn up. Multitudes of cattle were destroyed; in one level which was flooded 15,000 sheep were drowned.—It was during this terrific gale that the Eddystone light-house was carried away and its ingenious inventor and his associates perished.

GOING WEST.—We learn of several families of our county that are going to move West in the course of a few weeks. These families are among our best citizens, and are leaving, they say, because they cannot pay the enormous taxes that are now being imposed upon them, and make any money. We hear of others who wish to sell out and leave. We regret to see any of our citizens leaving their homes in North Carolina for the West, but they will find it impossible to thrive under the present exhorbitant rate of taxation imposed by our present New England Constitution; but we hope that at our next election for members to the Legislature, the people will require the candidates to pledge themselves to call a Convention to form another Constitution in which all the objectionable and extravagant features of the present one will be wiped out, especially that clause that guarantees the faith of the State to pay all debts contracted by the speculators and Railroad rings that are now plunging the State irretrievably and ruinously into debt for their own selfish and sordid purposes. *Western Sentinel.*

A young man went to visit his intended in Jersey, the other evening, and as it was late and very dark when he left the house, she insisted on his taking a lantern with him, and gave him a red paper one, *a la* Chinese. The youth had a long distance to walk to the depot, and took the railroad track as the shortest route. He walked along, paying very little attention to any thing, being somewhat abstracted with the thoughts of his lady love; but the revery was suddenly brought to an end by some one from the rear, who gave the Chinese lantern a kick that sent it flying. "Confound you!" said the person from behind, "here I have been slowing my train for the last two miles on account of that red light."—And indeed it was true, for not far behind him the young gentleman saw a freight train, and it was the engineer who kicked the light. The young man now goes among his chums by the name of "Red Light Bill."

THE GOVERNOR IN LIMBO.—It is reported in our city that Gov. Reed, while in New York a short time since, was arrested and held in custody for two days by the Sheriff of Manhattan County. The cause is said to be in connection with the Littlefield *bogus drafts*, some of which are known to have been given to members of the Legislature at its last session, and rumor says to higher officials, for aiding the passage of the Railroad bill. We are told that the Governor's case had some connection with the Freedmen's Savings Bank in this city, which, upon Reed's recommendation, cashed some of Littlefield's drafts, and, when sent on for collection, they were protested. So when his excellency visited New York, the President of the Bank had him arrested. For the reliability of this statement, we do not pretend to vouch, but give it as it was told us. The Governor is expected to return to the capital during the week.—*Tallahassee Floridian.*

The Swedish government is studying a new plan of territorial division, which, if adopted, will divide the country into fifty-four provinces.

A San Francisco reporter went to see Farragut, and was told by that hero that the story of his fighting his ship lashed to the masthead was a fabrication. Farragut says he climbed up some distance below the mainstop and that was all.

There are, at the University of Virginia, 426 students; at Washington 348; and at the Virginia Military Institute, 347 enrolled, and 325 "present for duty."

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing or vivid colored bodies; these lenses, by softening the rays effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug. 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug. 23, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON,
Pastor of the Presbyterian Church.

State of North Carolina,
EXECUTIVE DEPARTMENT,
Raleigh, March 28, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully your,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

W. K. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:

We notice a new feature in the programme of the State Fair namely, an address by the President, at the opening.—This feature has been introduced, we understand, because the present Fair, is the first after a long interval, and to give an opportunity to present the present condition and past history of the Society. There is a peculiar propriety in this arrangement and we think it would be well for the precedent to be followed at future fairs on the occasion of the opening.

A MOST EXCELLENT HOUSE.—Messrs. Canfield, Bro. & Co., of Baltimore, dealers in Watches, Jewelry, &c. See advertisement.

MIND YOUR EYES.—L. M. Davis, the North Carolina optician, who fits glasses to all eyes, will be in Raleigh on Tuesday, and remain during the Fair. His glasses are good as well as cheap.

NICE FOR THE FAIR.—The rain we had on Friday and Friday night was just the thing for the Fair, as it wet the ground sufficiently to prevent the clouds of dust that would have proved so annoying, and came long enough in advance to prevent the streets and grounds from being worked up into a "lob-lolly."

DR. BERNHARDT, will remain at his head quarters at the Yarborough House in Raleigh, during Fair week, where he may be consulted by persons desiring to procure assistance for their eyes. He is doing a very large business and is in daily receipt of letters from persons desiring his services.

MESSRS. TREMAINE BROTHERS, announced for Monday and Tuesday evenings, at Tucker Hall, will arrive by to-day's Northern train. Their large "Bourdette Combination Organ," said to be the finest instrument of the kind in the world, will be used in these concerts. Lovers of good music may anticipate a rich treat at Tucker Hall.

BACK AGAIN.—The Local hereof is back at his post, after a short leave of absence and flying trip to his old tramping ground in Halifax county. This is the first time he has been absent from his post for a *single hour*, (during business hours,) since the first of June last, and he feels that the little recreation thus taken will enable him to worry through the State Fair and *do* the Legislature, when it meets, without too much strain on his physical and mental organisms.

We learn from the best authority that the losses of W. S. Battle, Esq., by the recent burning of his mills, gin houses and barns were about $20,000. This is quite heavy but not so large as rumor reported it. Mr. Battle has already commenced to rebuild and will soon be under way again.

OBIT,—that Parson Brownlow is dead. We have seen no authentic announcement of the fact, and think it likely there is some mistake about it. There being no telegraphic communication with the place it is likely he is going to, we have no means of ascertaining the truth of his arrival there.

THE RECONSTRUCTED FARMER, for October contains a number of excellent articles, any one of which, to a sensible man engaged in agriculture, would be worth many times the subscription price, which is only $2 a year, payable in advance.

GONE GLIDDERING.—"Owing to the pressure of money matters and the hard times," the Salem *Press* announces, in its issue of the 14th inst., that that paper will be suspended from and after that date. The *Press* lent its utmost aid in bringing upon the State "the pressure of money matters and hard times," by putting in power a set of irresponsible legislators that have taxed the people to death, and now it feels the reaction in the diminution of its subscription list to the *suspension* point.

Other Radical papers in the State would go the same way but for the nutriment they draw from the public pap; even the metropolitan organ itself would die in a month, but for the sustenance it receives in the way of State patronage.

We bid the *Press* (no longer the *People's*) a long adieu. It is an old acquaintance and we shed a tear to its memory. It might have lived longer if it had been true to its name, but it forsook its first love and now dies an outcast.

At a recent masquerade ball at Fort Washington, a Brooklyn belle appeared as the "Brazilian bug," from Agassiz's sketches. The dress was of black tulle, profusely spangled with green, copper and bright tinsel. The hat worn was shaped like a bug while from her shoulders radiated wings, heavily spangled.

He was lodged in jail because he refused to pay the fine, but was released in fifteen minutes on a writ of *habeas corpus*. THE UTLEY
COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappreciated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Address T. H. BRIGGS

It gives a soft, satin-like texture to the Complexion, removes Roughness, Redness, Blotches, Sunburn, Tan, &c., and adds a tinge of Pearly Bloom to the plainest features. It brings the Bloom of Youth to the fading cheek and changes the rustic Country Girl into a Fashionable City Belle.

In the use of the Magnolia Balm lies the true secret of Beauty. No lady need complain of her Complexion who will invest 75 cents in this delightful article.

A Card.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Pah! How Disgusting! is the exclamation of every lady who indiscreetly ventures to apply the ordinary hair dyes or 'colorers' or 'restorers' to her whitening ringlets. Mud and tar are scarcely more abhorrent. Not so PHALON'S VITALIA OR SALVATION FOR THE HAIR. Nothing defiles its freely flowing crystal. There is no sediment, no gum, no foul gas. It is harmless, and its operation perfect. What a discovery!

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed nett assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13 337 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with
C. W. LAMBETH,
Agent for the Publishers
and Sup't of Introduction.

From Dr. WM. B. HARRELL, Prin. High School, Snow Hill, N. C.:
SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALBERT SMEDES, D. D., Rector of St. Mary's School, Raleigh, N. C.
RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable.
ALBERT SMEDES.

From J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:
GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular.
J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSS, Prin. Durham Academy, N. C.:
DURHAM, N. C.

I design introducing the present season McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition.
M. CLOSS.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.:
NEWTON N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work.
M. L. LITTLE,
Prin. Pleasant Hill Seminary.

From Rev. S. IVEY, Prin Auburn Academy N. C.:
AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.
STRINGER IVEY.

Prof. WM. A. OBERCHAIN, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.:
WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation.
J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.:

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.:
MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance.
G. D. BERNHEIM.

From Prof. JOS. H. FOY, President Stantonsburg Scientific High School, N. C.:
WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the *chef d'œuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit.
J. H. FOY

From the Statesville, N. C. *American*, February 26th, 1868.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder National Elementary Speller. The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh *Daily Progress*, Feb 20, 1868.

NATIONAL SECOND READER.—We have never examined a volume of its class that we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1868.

NATIONAL FIRST READER.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. Daily *Herald*, 1868.

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.
